About MMMUT, Gorakhpur (UP) India

Madan Mohan Malaviya University of Technology, Gorakhpur has been established in the year 2013 by the Government of Uttar Pradesh in the form of a non-affiliating, teaching and research University after reconstituting the Madan Mohan Malaviya Engineering College, Gorakhpur which was established in 1962.

Fifty batches of students have entered its portals to emerge after four years of rigorous education under the tutelage of some of the most vulnerable teachers, engineers ready to face the world and create new worlds.

About Management Studies Department, Gorakhpur (UP) India

The Department of Management Studies was established in the year 2001. The main objective of the department is to impart academic programs in the field of management studies, and act as a center of excellence in the field of management practices and applications in addressing the challenges of the emerging global business environment, society and industries. The department offers UG, PG and Ph.d programs in management studies. A 4-year UG

programme namely the Bachelor of Business Administration (BBA) with the major and minor specializations is being run by the department. A 2-year PG programme namely the Master of Business Administration (MBA) with dual specializations is being run since the inception of the department.

Objective and Scope of the Conference

International Conference on Emerging and Sustainable Practices in Management (ICESPM-2026) is a prestigious international level academic event with a vision to fostering excellence. The motive is to create a dynamic professional platform for providing an excellent opportunity to the researchers, academicians, industrial professionals and budding students who are dedicatedly involved in innovative areas of Management and other interdisciplinary & allied areas in or around the world to share their research findings with the noble experts. Emerging & Sustainable Practices in Management are fundamentally transforming how organizations are managed, governed in a sustainable environment. In an era defined by volatility, climate change, digital disruption, and stakeholder capitalism, management is no longer focused solely on efficiency and profit. Instead, it integrates innovation, ethics, resilience, and sustainability. Technologies such as Artificial Intelligence (AI), Big Data, Internet of Things (IoT) and Green Technologies are redefining managerial decision-making and enabling sustainable management practices across industries.

ICESPM 2026 will be held in Management Studies Department, MMMUT Gorakhpur (UP) India from 21st August to 22nd August, 2026. The key objective of ICESPM 2026 is to

provide opportunity to the participants to share their ideas and experience in person with the esteemed experts expected to join from across the globe. In addition to this, gathering will help the delegates to establish the research or business relations as well as to find national as well as international linkage for future collaborations in their career path. We hope that Conference outcome will lead to significant contributions to the knowledge base in these up-to-date diverse field of Management.

Participants at the Conference will have opportunity to explore, expound on, and extend the rich heritage of research on management and technology arena. We expect to witness vibrant scholarly sessions underscored by a profusion of thought provoking ideas. ICESPM 2026 shall provide a platform to present strong methodological approach and focus mostly on sustainable management practices.
